The Electoral Vote of Texas Washington Jan 26 -- The Texans ac-Austin are much exercised about the peopardy in which the electoral vote of heir State was placed when the presuling officer of the Sonate refused to receive it in the condition in which it was brought in the condition in which it was brought to this city. They are ignorant apparently, of the fact that the return of the vote was not only sanctioned but gractically requested by Senator Coke and Senator Reagan. The Texas Senators were very a xious that the vote of their State should be counted and it was on a telement of the properties. gram from them that the Governor of I tas recontened the electors of the

Imports and Exports WASHINGTON, Jun _6 —Exports from the United S ates during December past were valued at \$85, 55,481 against - 223 551 in 1887 Imports during December were \$60 488,104 against \$52 111,228 in December 188° For the calendar year 1888 exports were valued at \$691 766 426 against \$715 801 044 in 1887. Way Out of His Diffi-

Leading to His Heavy

Defalcations.

INDIANAPOLIS Ind Jan 26 -A reporter yesterday succeeded in obtaining an in-terview with Joseph A Moore He is at present closely confining himself to his residence in the city. He talked with residence in the city. He talked with considerable freedom denying the rumors that depositors in his bank will suffer He stated that he had turned over to the Connecticut Mutual Life Insurance Company property worth two hundred thousand dollars. When asked if he knew what course he officers of the insurance

what course he omeers of the insurance company would pursue, he said if have no idea of their plans. I am simply waiting for developments and am entirely in their hands. I want it under s out that I have remained here to face the consequences of my acts of my own accord When i was informed that Mr Abbott, the secretary of the company, was coming out here to investigate my was coming out here to investigate my affairs, I had plenty of time to leave the country and save myself completely 1 decided to stay right here, and when Mr Abbott arrived I told him the whole truth about the condition of my business I did not conceal any thing, however trivial, and then I said to him that I proposed to remain here I told him that he could always find me if he wanted me, and promised him that I would not commit suicide So here I am waiting for any

thing that may come

Moore stated that his troubles dated back to 1880 "In 1879," said he a law was passed prohibiting foreign corporations from loaning money That destroyed my busi For two or three years I did noth ness For two or three vents I did nothing at all, and became very despondent Just before that, a shirt time I had gone into bankruptey, and an intimate friend who had indorsed my paper, was a heavy loser. I always considered that I was in honor bound to repay him and it was in an attempt to do this that my present translate analysis and it had no his means. troubles really began I had no business and yet had heavy running expenses. At the same time I was striving to repay my friend the money he had lost by me I had loaned great sums of money for the company I represented, taking real estate security After the land the borrowers were unable to pay off the mortgages, and the property fell back into our hands. It

had depreciated greatly in value and was naturally run down and in very bad ie pair I felt myself more or less at fault in having placed the loans so badly though in reality I had done the best I could I was extremely sensitive on this point"
I saw the company losing thousands of I saw the company losing thousands of dollars on investments that had been made on my judgment. All these things piled upon me, and as the e-grew on became more and more burnensome. Many time I felt as though I would lose my mind. I was beset on all sides and felt bound to do something to relieve myself. and jet there was nelling I could do

this point I went to kee York and began to speculate in sto ke I had fair suc cess too and made some money whenever I came back here I lost my nead and every thing went wrong "

Moore declines to say how much he had ost in stock speculation Real Winter in the Northwest

Supervisors to Meet on Thursday to Help the State Fair Project.

The following request is self explain

story:

atory:

To George P Hardy, County Clerk

You are hereby requested to call a special meeting of the Board of Supervisors of Macon county, state of Illinois, to be held in Decatur on Thursday, January sist, in the court house at Decatur, at 2 o'clock p m, for the purpose of considering the question of making an appropriation to fit up the fair grounds in a sultable manner for the state fair, and any other business connected with the fair grounds that may come before the board

John H Miller H b May, Hir un Johnson, J W Butman, H Manecke, I R. Rogan, H Evertly J A Meriweather, C Ammann, E. R Moffett and I. F Honck, Supervisors

Clark Hardy has assued the call for the Clerk Hardy has assued the call for the

meeting of the board, to be held on the afternoon of the 31st

In conversation with members of the board, the reporter finds that the sentiment for a liberal appropriation to improve the grounds is generally favorable. One member from the country to-day said he would vote to give \$15,000, and thought that a majority of the board would vote with him That's the way commander. He is well up in military to talk it The supervisors have a full toeties, is a strict disciplinarian and legal right to appropriate money to stands high at headquarters. The comimprove the grounds, which belong to pany is out of debt and is \$130 ahead the county Now it is only a question of Drill n eetings are held three times a how much they will apppropriate Let week, there are regular target practices it be a handsome sum. It is probable and everything is in good shape. that \$30,000 will be necessary to fill the requirements of the state board in the

way of improvements. If Decatur gets the state fair for four years it may stay here permanently.

A SPECIAL meeting of the Finance Committee appointed for the state fair agitation will be held this evening at 7 30 at the St Nicholas Hotel office. The members of the committee are C. M. Imbo den, W. H. Starr, Chas. G. Powers, D. A. Maffit, W P Shade, B. Z. Taylor, John R Miller, Chas M. Hurst, Robert Montgomery, George D Haworth, James C. Lake and F. M. Young

Mr. Martin in Town

Mr E J Martin arrived in the city last evening from the west, and to-day chatted with the REPUBLICAN reporter in reference to the electric street railway enterprise. He admitted that he is no longer connected with the Sprague Electric Company, and that negotiations are now in progress between President Barclay and himself with a view of settling the present difficulty, which we are assured will not affect the ultimate construction of the electric railway in De catur Mr. Sprague wants the Sprague power used, but Mr. Martin now thinks there is a better power—the Fisher Rea power, of Detroit, Michigan. The ordinance giving the electric franchise does not specify any system. Mr. Martin gets at the bottom of the situation by stating that the money to build the line is not with Baiclay, but is behind himself (Martin) Decatur people do not care what system is used so that it is one satisfactory to the city council. Mr Martin is not at all worried, although he is somewhat nettled over the conduct of Barclay, what nettled over the conduct of Dates, who is said to have attempted to pur chase the Chizens' line unknown to him Mr Martin says he will act openly and squarely with the people of Decatur, doing everything in good faith, and that he believes the Detroit company will supply

Reduced Insurance.

The directors of the Commonwealth

Mutual Fire Insurance Co. held a meeting last night, at which J W. Haworth, John A. Barnes, K. H. Roby, W. H. Linn, F. M. Young and A J. Wallace, of Decatur, and Isaac E. Adams, of Chicago were present. It is understood that the arrangement made by the Commonwealth with a Chicago company will greatly increase the business of the former, and cheapen the rates paid by its policy holders. The syndicate represented by Mr. Adams propose to put up a guaran tee fund of \$50,000, which will enable the Commonwealth to do business in other states, and the Chicago company will receive a compensating benefit in uniting policies on property partially insured in the former. The saving will be in the decreased expense of officers and agentsthat is, a larger amount of business by the same agents, which will reduce the the cost to policy-holders. The aim is to make a consolidation of the interests of the best mutual companies, without multiplying agencies and their consequent cost. More business at the same expens is the object-an end sought for by inmrance companies as well as all other

kinds of business enterprises Dr. Wallace occupies the position of local representative of the Chicago company, and John A. Barnes continues as secretary of the Commonwealth Mutual Insurance Co, having the same relationship with the company as in the past Both companies will work in entire uni son, and in this way the interests of each company will be mutually advanced.

Down to \$65,000.

The appropriation committee in the House yesterday reported back the house bill making an appropriation of \$100,000 for the payment of the employes of the general assembly, with an amendmen reducing the amount to \$65,000. The M V. Helm, wife and daughter, of Laytonville, Cal., are at the Hotel Bruneamount was adopted and the bill ordered to the third reading This reduction will reduce the number of ornamental em ployes materially.

Wrought Steel. NO GAS, Malleable Iron, No Leaky Joints. Little Fuel,

No one can say that the time was not ripe to a new furnace. The days of brittle, porous, cast iron furnaces are numbered. In every branch of manufacture cast iron is being driven out by wrought iron and steel. Every bridge that goes down in a wreck of lives and property is found to have cast iron members. Every bursting cannon which slays its friends rather than its enemies is made of cast iron. Every leaky furnace which poisons a household with its noisome gases is found to be made of the same cheap, unreliable n. mial. Improved methods of manufacture have made steel and iron plate, of first quality, less expensive than cast iron formerly was, and it is plainly in accord with progress in other directions that there should be progress both in design and the material of furnaces for warming our homes, churches and schools.

Man Told Why He Was There To a Hocking county court belongs the

Given a horse a man animated by the reckless daring likely to come of a wild, free life and The Centaur of ancient fable may be faily realized. A correspondent of the Omaha Herald, having visited an Arapahoe camp, gives the following account of an Indian drill, or dered for his amissement.

Fifty fine looking young men, mounted upon ponies drew up before the tents. At a signal from the chief they began their evolutions with a loud yell. In a moment, they disappeared over a neighboring hill. Then there suddenly rose a mighty trainpling of horses feet, and they swept past again so compact that I only saw a ball made of horses and men. erty and valued at \$8.50-A Horse

Now came the moment for displaying individual horsemanchip. Some of the riders aptroached each lying so close to his pony's brick that nothing but the horse could be seen. Others stood erect upon their animal's backs. Some hung to the horse by one foot and one hand so that their bodies were completely protected by those of the points.

These young warriors also threw objects upon the ground and picked them up at full gallop and drew bows and shot arrows from beneath the foreses neeks. Some of the men exchanged horses while riding.

Again a man would fall from his horse as if wounded, and two others inding up beside him would take him by an arm and a leg swing him between their horses and carry him off.

This exhibition lasted nearly two hours and at its close, men and horses were completely exhausted. All that evening the human performers lay in their lodges while the Indian women brought them food bathed their limbs and combed their hair.
